- » Tips & tactics on proposal development

Interactive

- » One-on-One interaction with Experts on European Funding
- » Personal consultation on the issues that matter to you

**Focus:
ICT, HEALTH
&
AGRICULTURE**

Why FP7 Training

Did you know that India can receive funding from the European Commission via the Seventh Framework Programme (FP7) when collaborating with European organisations?

Over 50 billion euro is available for a period of 7 years to finance research projects in all scientific fields!

The FP7-Proposal Preparation training is designed to provide Indian stakeholders with the skills needed to successfully develop FP7 proposals. The participants will be guided through the entire process of research proposal development; from call identification to proposal submission, including budget preparation, IPR and how to cooperate for European funding.

Join the FP7 Training and understand how You can benefit from European Funding

Get prepared!

Training participation is **free of charge**. Register before 9 March at EUINEC website: www.euinec.org

EUINEC FP7 e-training is available free of charge at www.euinec.org.
